* 1] Agenda of meeting :-

→ The National Human Rights Commission (NHRC) convened the meeting of the Core Group on the Right to food on March 19, 2024, with following agenda:

1] Aligning with Sustainable Development Goals (SDGs) :-

- Emphasize on SDG 1 No poverty & Zero Hunger & their relevance to India's policy.

2] Assessment of Current Food Security Mechanisms.

- Evaluation of effectiveness of Public Distribution System & its associated with Poshan 2.0.

3] Challenges in Policy Implementation.

- Identify gaps in government program, particularly in food distribution, quality of meals & nutrition for vulnerable groups.

4] Technological Integration & Innovations.

- Discussion on initiative like one nation one ration card (ONORC) Scheme & the use of digital tools such as Poshan tracker.

5] Recommendation for Improvement :-

- Soliciting suggestions from stakeholders on enhancing policy frameworks, addressing malnutrition, improving redressal mechanism.

* 2] Important issues discussed in meeting:-

1) Challenges in Public Distribution System (PDS):

- Leakage and diversion of food grains
- Inefficiency in coverage & distribution mechanism
- Limited inclusion due to outdated population figures and exclusion errors.

2) Nutritional Gaps & malnutrition.

- Persistent issues of undernutrition, overnutrition & micronutrient deficiencies.
- Specific challenges for vulnerable groups like children, pregnant & lactating mothers, tribal population.
- The need of dietary diversity in the PDS, with recommendation for adding items like millet, pulses.

3) Technological & operational challenges:-

- Implementation issues with the ANR scheme, including reliance on IT infrastructure, incomplete Ahar linkage, & low awareness.
- Problems in using digital tools like Poshan Tracker for accurate data.

4) Corruption & Accountability:

- Systemic corruption affecting the PDS, including pilferage & manipulation of records.
- Ineffectiveness in grievance redressal mechanism, with proposal of improving social audits & digital transparency.

*3] Recommendation & advisories in meeting:

- 1) Prioritize cost-efficient afforestation method for sustainable employment in barren landscape
- 2) Promote agroforestry to sequester carbon, improve soil health, create job in rural areas
- 3) Integrate climate-focused initiative into scheme like MNREGA for rural job creation.
- 4) Strengthen existing schemes like MNREGA for flexible work opportunities & upskilling of workers.
- 5) Define & prioritize green jobs, particularly in urban center, with targeted skilling program
- 6) Adopt the Restoration Opportunity Assessment Methodology (ROAM) for inclusive planning.
- 7) Advocate for comprehensive strategy addressing challenges & opportunities presented by the transition toward a low-carbon economy
- 8) Leverage India's renewable energy sector for job creation, emphasizing skill development & awareness-building for a smooth transition for accountability.
